## Skills, Achievements & Other Experience

---

- **Interest** (2022): I'm Interested in C and Robotics, base on my experience in KRBAI I decided to dive in more into Robotics and start research about it.
- **Interest** (2023): At the moment, I'm more interested in website development and machine learning. I understand that AI is the uniqueness of informatics in technology development, while the website is the best path as a skill that informatics students must have to get a job.
